SAGAR MAMINDLA

Full-Stack & AI Software Engineer

Dubai, UAE | +971 55 308 4546 | sagar05.ms@gmail.com

Portfolio: sagar-portfolio-chi.vercel.app | LinkedIn: linkedin.com/in/sagar-mamindla | GitHub: github.com/sagarr57

PROFESSIONAL SUMMARY

Full-Stack & AI Software Engineer with 4+ years of production experience building multi-tenant SaaS, AI-powered workflows and integration middleware with TypeScript, React/Next.js, Laravel, Python and PostgreSQL. Solo-built a 127-screen HR & payroll platform, delivered live fintech products processing real loan applications in the US and UK, and shipped ML and LLM features into production. Completing an MSc in Artificial Intelligence at Heriot-Watt University Dubai (Dec 2026). Based in Dubai; open to relocation.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, PHP, Java, SQL

AI / ML: Claude & OpenAI APIs, Vercel AI SDK, MCP, RAG & embeddings (pgvector), AI agents, LangChain, Speech-to-text (Whisper), ElevenLabs, PyTorch, TensorFlow/Keras, Transformers, scikit-learn, XGBoost, SHAP

Frontend: React 19, Next.js, Tailwind CSS, shadcn/ui, TanStack, Inertia.js

Backend: Node.js, Laravel, FastAPI, Express.js, REST/OpenAPI, WebSockets, Queues

Databases: PostgreSQL (row-level security), Supabase, Neon, Drizzle, MongoDB, MySQL, Redis

Integrations: WebRTC & VoIP, Asterisk, WhatsApp Business API, SMS, Stripe, Webhooks, n8n

Cloud & DevOps: AWS (S3, EC2, SSM), Vercel, Docker, GitHub Actions, CI/CD, Turborepo

Testing & Security: Playwright, Vitest, Jest, Pest, RBAC, MFA / passkeys, GDPR tooling

WORK EXPERIENCE

AI Solution Engineer | Louis Charles International, Dubai, UAE Jul 2025 – Present

- Solo-built **Staffena** (staffena.com), a multi-tenant HR & payroll SaaS — 127 screens, 20+ modules, 290 migrations, ~285k lines — using Next.js 16, TypeScript and Supabase/PostgreSQL with row-level tenant isolation.
- 2nd-highest contributor (~925 commits, 6+ engineers) to a multi-tenant CRM & communications SaaS for financial-services firms: unified inbox (email, SMS, WhatsApp), browser calling (WebRTC) and AI call transcripts (Laravel, React, pgvector).
- Top contributor to an AI project-management platform (Next.js 16, Vercel AI SDK, MCP) with CI quality gates on every pull request; lead developer of Python/FastAPI middleware connecting a CRM, an AI outbound-calling agent and a booking system.
- Built a **machine learning bank statement classifier** (Python, scikit-learn, pdfplumber) covering 10 UK bank formats, feeding a live loan affordability engine.
- Delivered **QuickCash Direct** (US instant loans) and **All Day Loans** (UK instalment loans) with real-time lender matching, plus the **PingFree Admin** dashboard linking ad spend to funded loans.

Co-founder & AI Engineer | Dravyx AI, Dubai, UAE Apr 2026 – Present

- Run an AI automation studio building voice and WhatsApp AI agents, automation and BI reporting for service businesses (dravyxai.com).
- Delivered client websites including SRR Auto Spare Parts.

Full-Stack Developer Intern | Decarbeon, Dubai, UAE Feb 2025 – Apr 2025

- Built ESG and energy dashboards with Next.js, Chart.js and Power BI, and a WordPress app for sustainability content.

Freelance Full-Stack Developer | Remote Apr 2024 – Jan 2025

- Built an AI-powered e-commerce platform (React, Node.js, MongoDB) with ML product recommendations and an AI support chatbot.
- Built client websites with WhatsApp Business API and n8n lead-capture automation, reducing manual follow-up effort by 50%.

Associate Software Engineer | **New Relic, Hyderabad, India** Feb 2023 – Mar 2024

- Architected reusable React components for performance-monitoring dashboards, delivering 25% faster load times.
- Designed a landing page that increased user engagement by 35%.
- Led QA automation with Playwright and Jest, achieving zero critical bugs across production releases; optimised CI/CD pipelines, cutting configuration overhead by 40%.

Junior Engineer | **XRG Consulting, Hyderabad, India** Sep 2021 – Jan 2023

- Developed a Java backend service for automated user invitations, eliminating 40% of manual follow-up tasks.
- Documented API workflows in Swagger, reducing new-developer onboarding time by two weeks.

EDUCATION

MSc Artificial Intelligence | **Heriot-Watt University, Dubai, UAE** Jan 2025 – Dec 2026 (expected)

Coursework: Machine Learning, Deep Learning, NLP & Text Analytics, Bio-inspired Computation, Intelligent Agents, HCI

B.Tech Computer Science & Engineering | **Keshav Memorial Institute of Technology, Hyderabad** Jun 2018 – Aug 2021

SELECTED PROJECTS

- **MindVibe (MSc dissertation):** explainable ML on behaviour and text — DistilBERT, XGBoost, LightGBM, SHAP — shipped as a FastAPI service and a user-tested app; 0.834 weighted F1 across 6 datasets (17k records), SUS score 77.4.
- **Crop Recommendation & Disease Detection:** ensemble ML crop recommender (99.72% accuracy) and a CNN classifying 38 leaf diseases (TensorFlow/Keras).
- **The Kaash Journal** (thekaashjournal.com): AI × fintech publication with its own CMS and analytics (Next.js, Node.js, Supabase).
- **SRR Auto Spare Parts** (srrautomobileparts.com): parts catalogue with vehicle-fitment search and WhatsApp ordering.

CERTIFICATIONS

- Prompt Engineering: How to Talk to the AIs — LinkedIn Learning (Oct 2025)
- Meta Front-End Developer — Meta, Coursera (Mar 2024)
- Programming for Everybody (Python) — University of Michigan, Coursera (Nov 2019)
